	Document ID	Title	Current OR
1	US 6351467 B1	System and method for multicasting multimedia content	370/432
2	US 6263364 B1	Web crawler system using plurality of parallel priority level queues having distinct associated download priority levels for prioritizing document downloading and maintaining document freshness	709/217
3	US 6263049 B1	Non-random call center supervisory method and apparatus	379/32.01
4	US 6253204 B1	Restoring broken links utilizing a spider process	707/102
5	US 6151624 A	Navigating network resources based on metadata	709/217
6	US 6145003 A	Method of web crawling utilizing address mapping	709/225
7	US 6070176 A	Method and apparatus for graphically representing portions of the world wide web	715/513
8	US 6003043 A	Text data registering and retrieving system including a database storing a plurality of document files therein and a plural-character occurrence table for a text index and an update text buffer to retrieve a target document in cooperation with the database	707/203
9	US 5987134 A	Device and method for authenticating user's access rights to resources	713/159
10	US 5978842 A	Distributed-client change-detection tool with change-detection augmented by multiple clients	709/218
11	US 5974455 A	System for adding new entry to web page table upon receiving web page including link to another web page not having corresponding entry in web page table	709/223
12	US 5958008 A	Software system and associated methods for scanning and mapping dynamically-generated web documents	709/223
13	US 5941944 A	Method for providing a substitute for a requested inaccessible object by identifying substantially similar objects using weights corresponding to object features	709/203
14	US 5898836 A	Change-detection tool indicating degree and location of change of internet documents by comparison of cyclic-redundancy-check (CRC) signatures	709/218

15	US 5895470 A	System for categorizing documents in a linked collection of documents	707/102
